目的

日本の様々な面を理解できる人材を育てます。

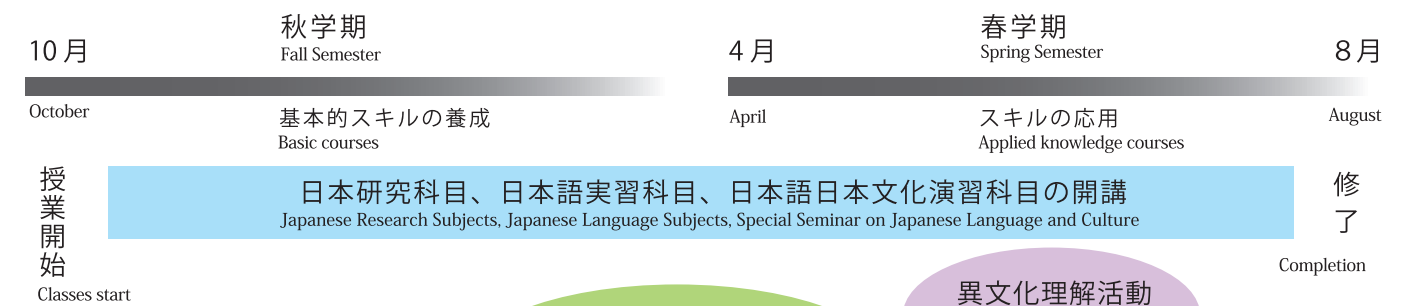

To foster talented men and women who understand diverse aspects of Japan.

近年、日本企業による海外への進出が目覚ましく、そこでは日本語運用能力と日本文化に対する広い見識を有し、現地での橋渡しとなる人材が求められています。メイプルプログラムでは、こうした人材の成長を促進するために、日本語運用能力を伸ばしつつ、比較対照的視座から日本を多面的に捉え、咀嚼し、発信できる能力を育成します。

As the number of Japanese companies expanding their businesses overseas is rising considerably, there's an increasing need for personnel with high Japanese language proficiency and a broad knowledge of Japanese culture. There's a growing demand for talented men and women who can act as a bridge between the company and the local community. The purpose of the Maple Program is to foster such talented people, by further improving students' Japanese language skills and their ability to view Japan in a comparative-contrastive way from various angles, as well as their ability to process and to convey their findings.
